At : Asia and Pacific Trade Center OSAKA

Sound Messe Executive committee

1. Information : what we should do !

Our SOUND MESSE is held for the all category which is related to music business of Shop, Importer, Luthier and Manufacturer.

Of course there is not concrete category to divide each party but it seem it is very few chance to see all merchandise of every party of music instrument. Then we decided to joint those parties together, offer to customer to look every guitars and ukuleles in one time. We believe it will be much effective to find new potential customers.

We started from the show for Acoustic equipments, but from last show we started to exhibit Electric equipments together because of considering the current of strings equipments market and the reaction from visitors of our previous show.

We believe our show has improved as total exhibition of consumer strings music equipments.

Especially for the acoustic guitars/ukuleles, it is different from Family Electric stuffs, almost all customer chooses the goods by himself by touching and playing. At this point, we decided to promote our "SOUND MESSE 2017" with all Manufacturers, Importers, Shops and relatives of Music business.

○About a held time change

We held it as every autumn periodical event until 2015, but it often fell on an overseas exhibition at this time, and invitation of foreign countries maker, musical instrument producer was difficult. We changed time in spring held than 2017 under the thought "to have more exhibition company gather regardless of home and abroad". Because a favorable reception was got from a visitor of the arrival including exhibition company, we will plan the

○We largely change area constitution in 2018

The holding faced it in the largest exhibition booth in the past in 2017, but, with increase of the number of exhibition company, we pursue further convenience in this term and reconstitute the area. We make use of the last reflection, and a visitor of the arrival is easy to look and thinks that you can feel a big merit to exhibition corporation in pursuit of affordable area constitution.

Sound Messe Executive committee

9. About a demonstration

The special quality of each category is considered and a regulation about a demonstration is established.

- Electric Guitar & Bass area, Acoustic guitar area, Ukulele area and Special exhibiting area

In the specified time, (every 1 hour, schedule) can do a demonstration at your booth. A demonstration and test play can use an amplifier and the booth is possible.

- Shopping area

It's possible to use an amplifier for test lay, but you can't give a demonstration in the booth. Please use a sound proof room in the meeting place for test play of acoustic instrument.

■ According to the submitting category and demonstration implementation area in the booth

Category	Manufacturer Traders	Shop	LUthier
Electric guitar & Bass area	○	---	○
Acoustic area	○	---	○
Ukulele area	○	---	○
Boutique guitar area	---	---	×
Shopping area	---	×	---
Special exhibiting area	○	---	---

[Notice] demonstration implementation area commonness

- * A demonstration in the booth sets possible time to do it (It's scheduled every 1 hour.)
- * Volume regulation in the hall is performed including test play. When crossing 90db, you lower the volume.
- * We'll announce a schedule of each booth in formal website.
- * We will inform you later about Booth inside demonstration.

10. About Buyer's day

■ Carrying in day and Buyer's day (May 11, Fri.)

We plan buyers DAY(business talk society) to be able to utilize the time until from 14:00 to 18:00 of the carry in day as a place of the business talk with each business other side. I assume it a prior registration system, and only supplier that a musical instrument dealer is lived by can enter it on the same day.

The element of the exhibition was strong in maker-like / wholesaler in the musical instrument show of these days, and the implication called the advertisement was mainstream. At the sound Messe, we aim at the display & sale connected directly with the business of all of you more and think that you can utilize it as a place of the business promotion not to remain in the Kansai area. Active business by large number of exhibition company is performed and has a favorable reception every year. We think that you can utilize this opportunity by all means.

<for Manufacturer/Traders>

You can do business discussion meetings set time by each company. To submitting dealers and also have the clients who don't have a booth in this show, and you can talk business at each booth.

<for Shops>

A business discussion has make the formed trade material for general visitors from the next day, and exhibiting it at each manufacturer booth, and when having a request from the users, they're able to sell it in the self-store booth.

<About dealer registration>

You're submitting, the dealers who don't have a booth in the show, please make it an advance registration system at a our formal website. Only the person who registered will issue an entrance pass (It's effective only for Buyer's day.) (* dealer registration no charge.)

Please be guide the clients of much by all means, and when you can plan active submitting which involves the sales, it's lucky.
